Adam Fry

Network Field Engineer · Deployment & Operations

Santa Clara, CA · FrySecOps@pm.me · fry-cv.pages.dev · linkedin.com/in/fryadamfry (not kept current) · +1 812 320 9626

18+ years in field networks. My work runs from carrier fiber to IDF/MDF builds.

Looking for a local, long-term role

Data center operations technician (colocation DCO), AI data center deployment technician / lead, or network deployment engineer.

Available to interview now · can start November 16, 2026 · Nights, swing, 24/7 shifts and on-call.

Selected experience

Network Field Engineer · National telecom field-services contractor

Apr 2025 – Present (rejoined) · Oct 2023 – Jun 2024

- Deploy 75–150 USPS sites a year. Largest sites have 300+ APs across a dozen IDFs and one MDF. Install switches and rack power; fit optics and find physical-layer faults on site.
- Write each cutover's MOP and change ticket; handle top outage escalation. Certify cabling with a Fluke Networks Versiv 2. Link testing: EXFO · OTDR · LinkIQ.

Volunteer Network Lead · Hacker Dojo

2026 – Present

- Wrote the network plan from an Ekahau survey: priced options, equipment list, cutover sequence and risks.
- Designed and deployed Ubiquiti UniFi Wi-Fi 7 for 100–200-person events at 2+ devices per person; worked with admins on traffic separation.

Venue camera-system contract (Jun 2024 – Apr 2025): built a GPU workstation driving six 75-inch displays; cut installation time by about 18% per venue through rack layouts and pre-staging.

Geek Squad: computer diagnosis and repair (2005–2007); hardware work with technicians in store and on site, including server and UPS installs and swaps (2023).

Earlier: Automation Systems Installer / IT Support, Smart Home Technologies (2022–2023); fiber, coax and Ethernet installation business for cable carriers (2018–2022); onboarding and certification preparation for 125+ field technicians (2015–2018); Communication Technician, Comcast, last mile to headend support (2007–2015).

Certification & Education

CompTIA A+ · Coursework toward B.S., Cybersecurity and Information Assurance, Western Governors University

Lifts 50+ lb; works on ladders and lifts · Valid driver's license · US citizen.

I'm still employed. Please share privately. Don't post or tag me.

"Fry is professional, thorough and dependable." Peter Theobald, Hacker Dojo Board of Directors
